

SITE ANALYSIS SWOT ANALYSIS

a : buildings
a1: Former Military Hospital, built in 1608
a2: Fraternity Museum Complex

b: public area
b1: Parco dei Quartieri Spagnoli
b2: football playground
b3: outdoor activity area

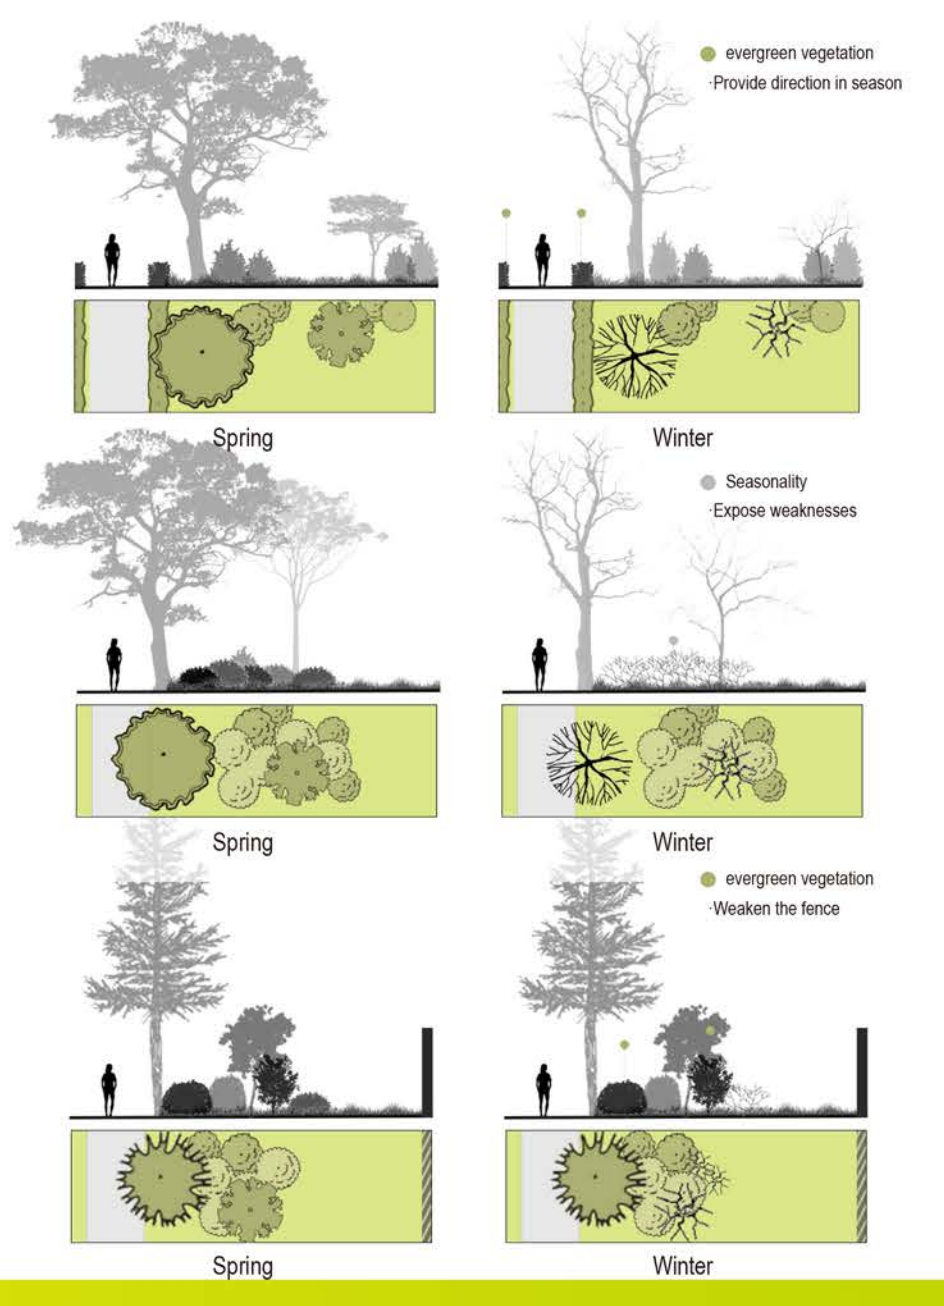

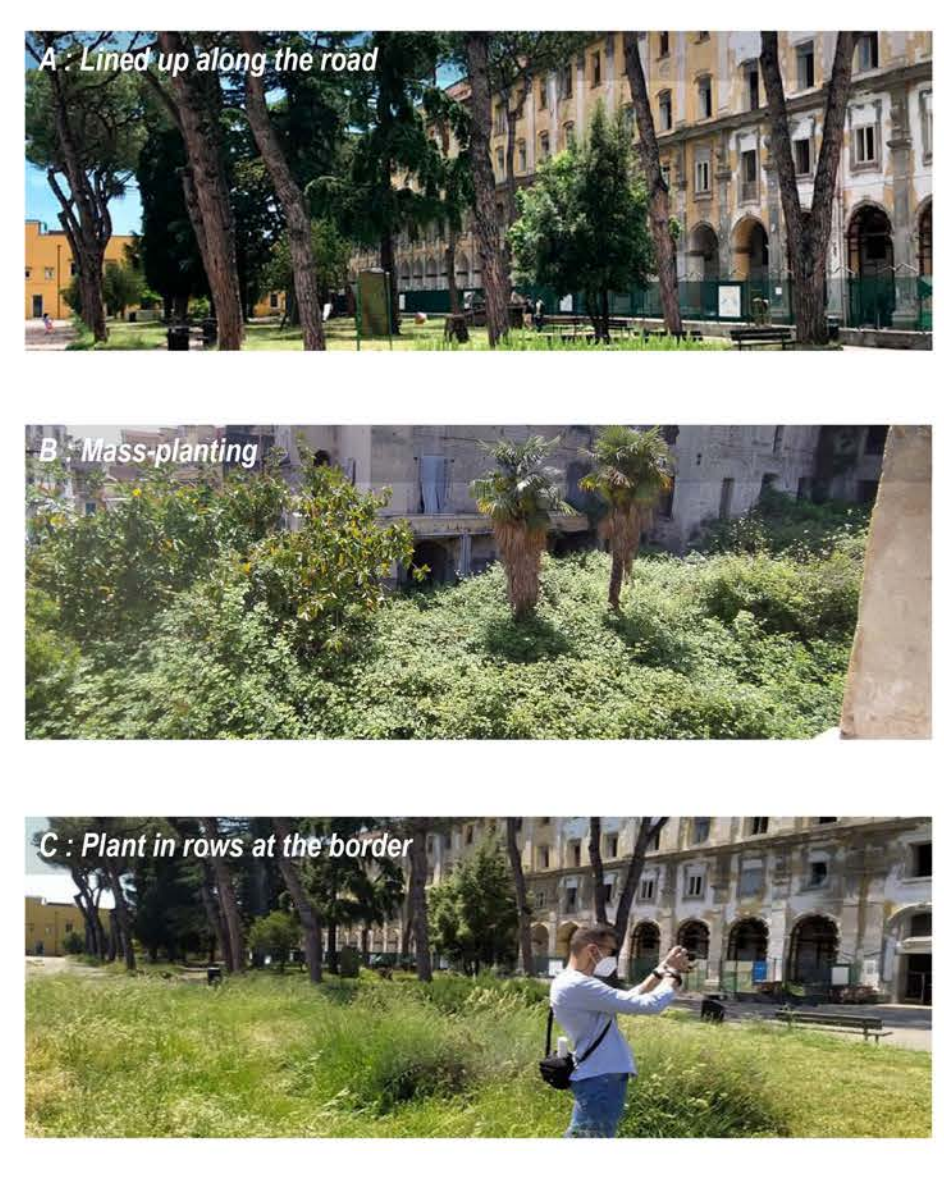

Strength
Long history, Historic sites are well preserved
The site open to the public
Shows the architectural styles of different periods
The reconstruction and continuation of the building highlights an important historical position
Still has a good vision
Emphasize the historical style of the garden

Weakness
Doesn't have any functions at present, the use rate is low
A large area accounts for a waste of space
Building abandonment
The building is not well preserved
Lack of visibility, completely covered by vegetation
Lack of spatial element characteristics
Lack of relationship with outside

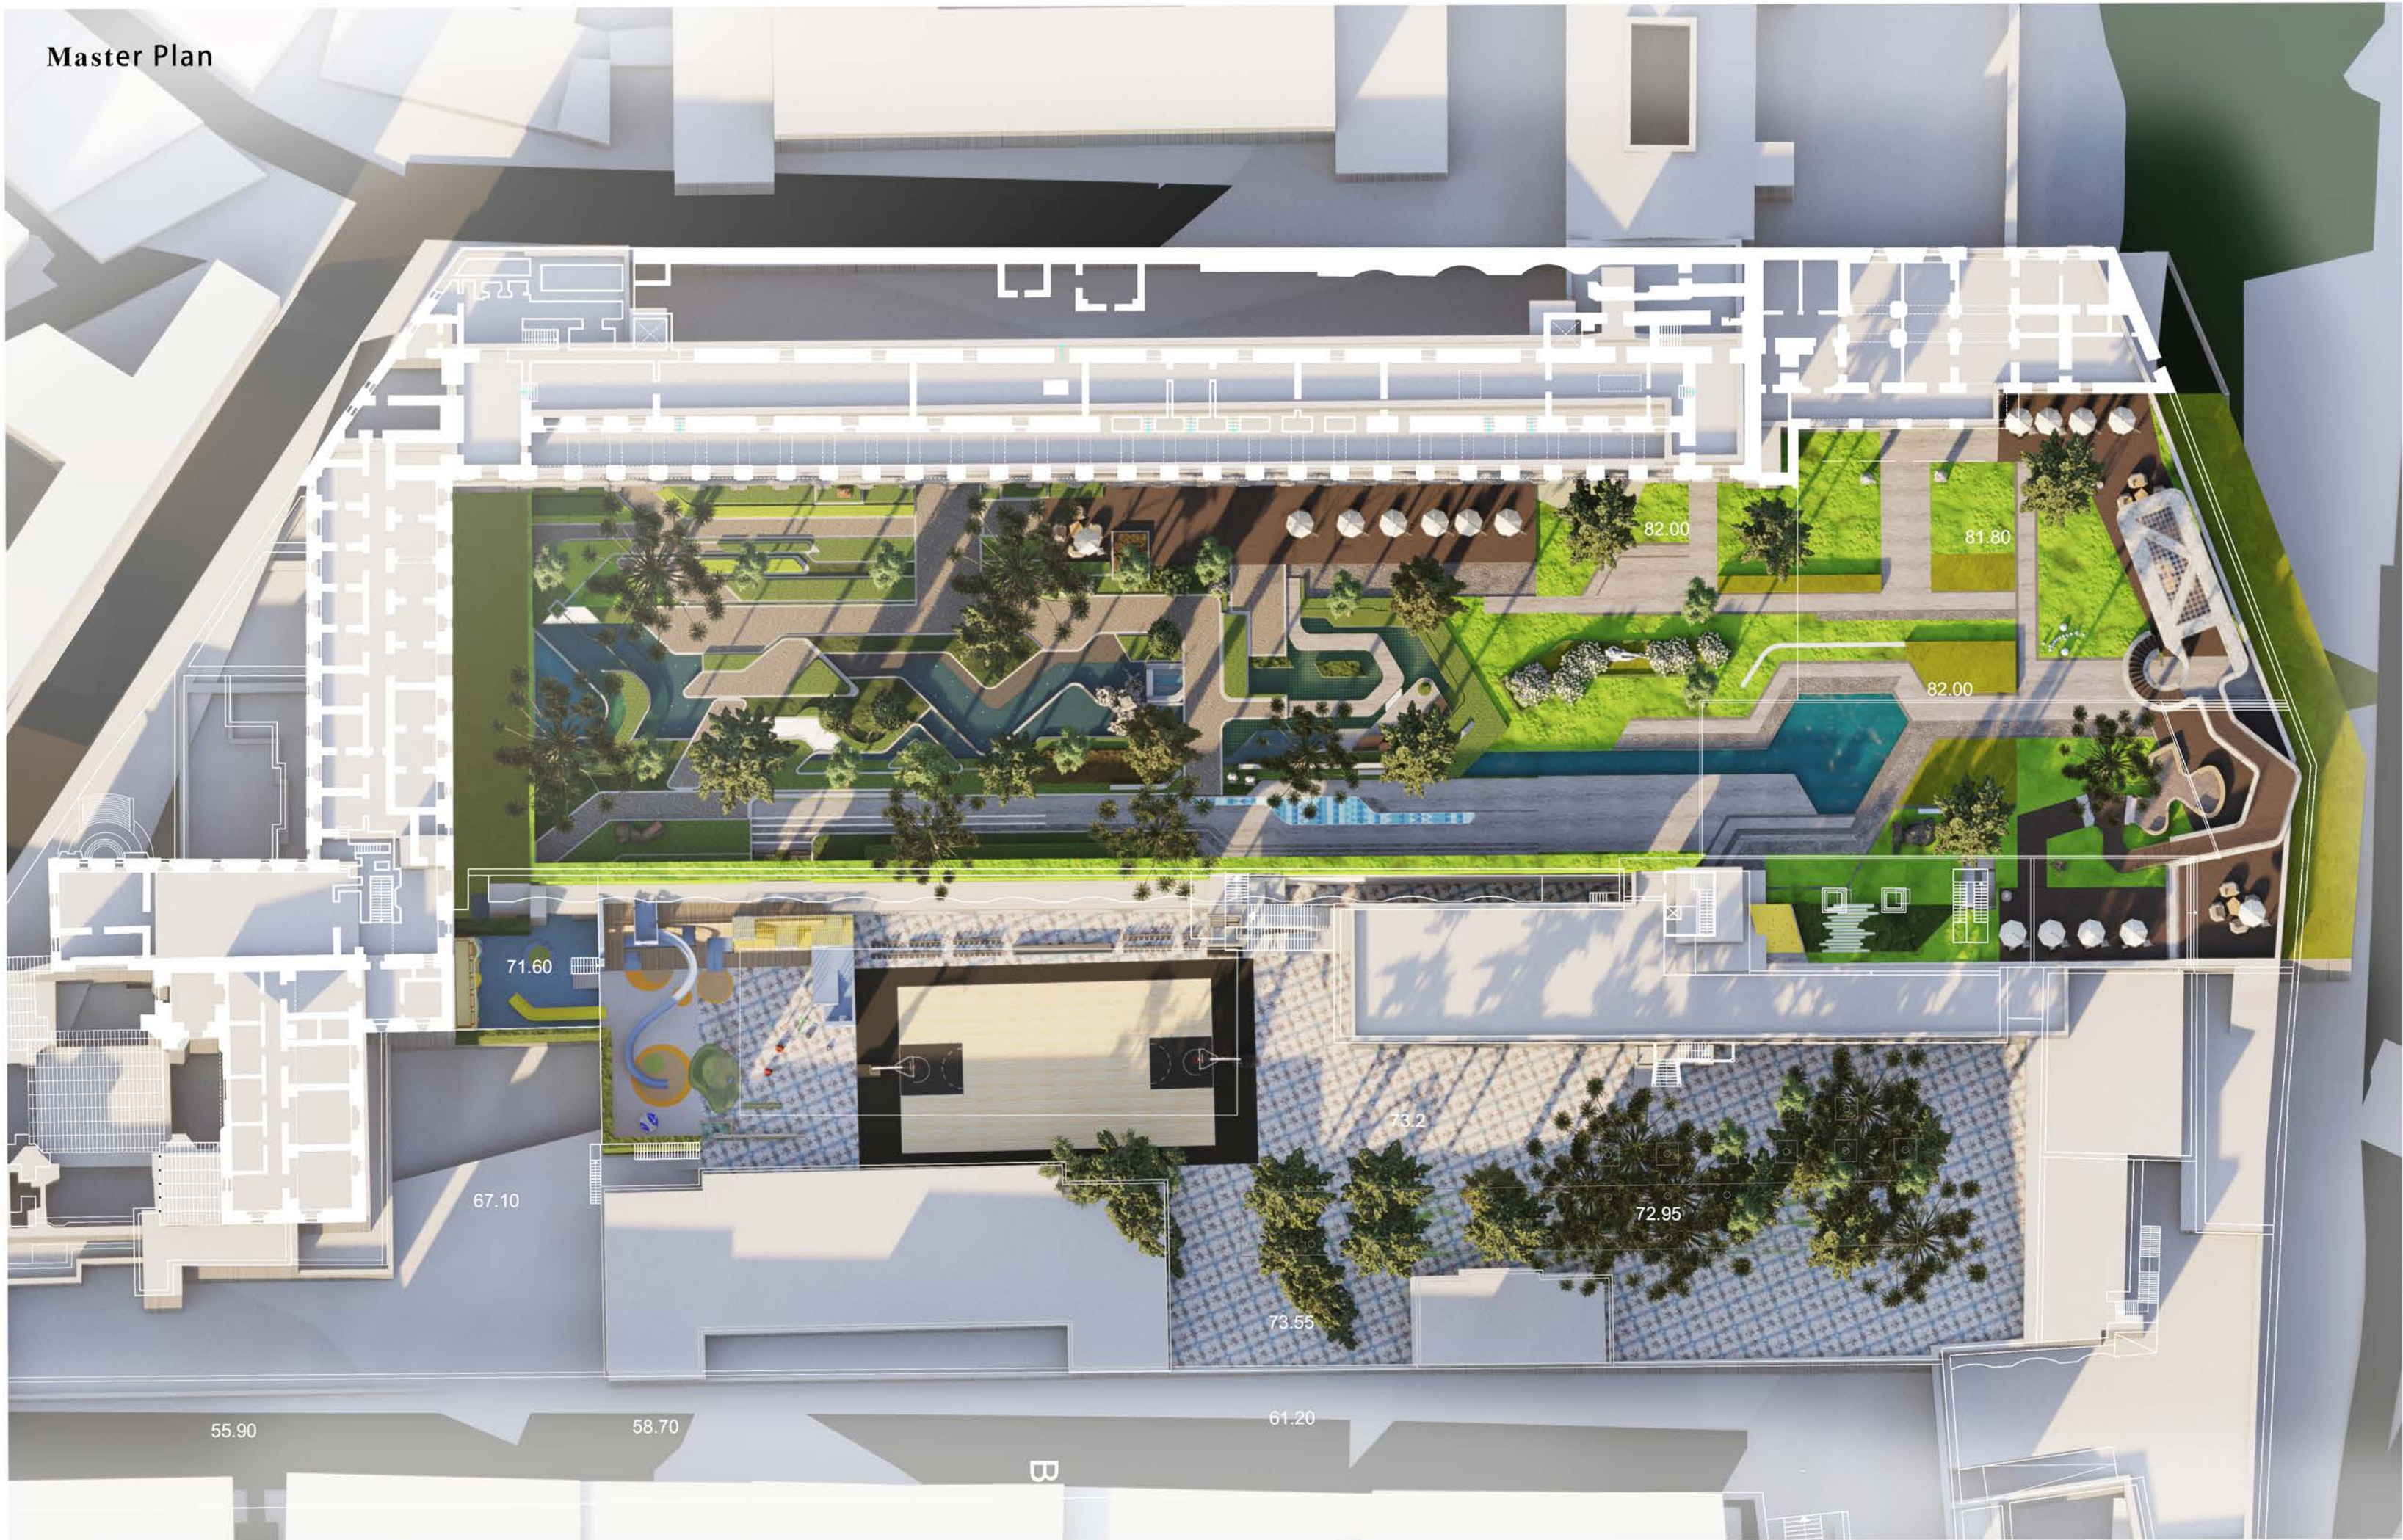

Opportunity
Reemphasize historical identity
Add new functions and use the artistic space to increase interest
Create new road connections for tourists
Reduce the planting of some vegetation
Remove it for new identity

Threaten
The exterior of the building is severely damaged due to lack of maintenance

Types of Vegetation space

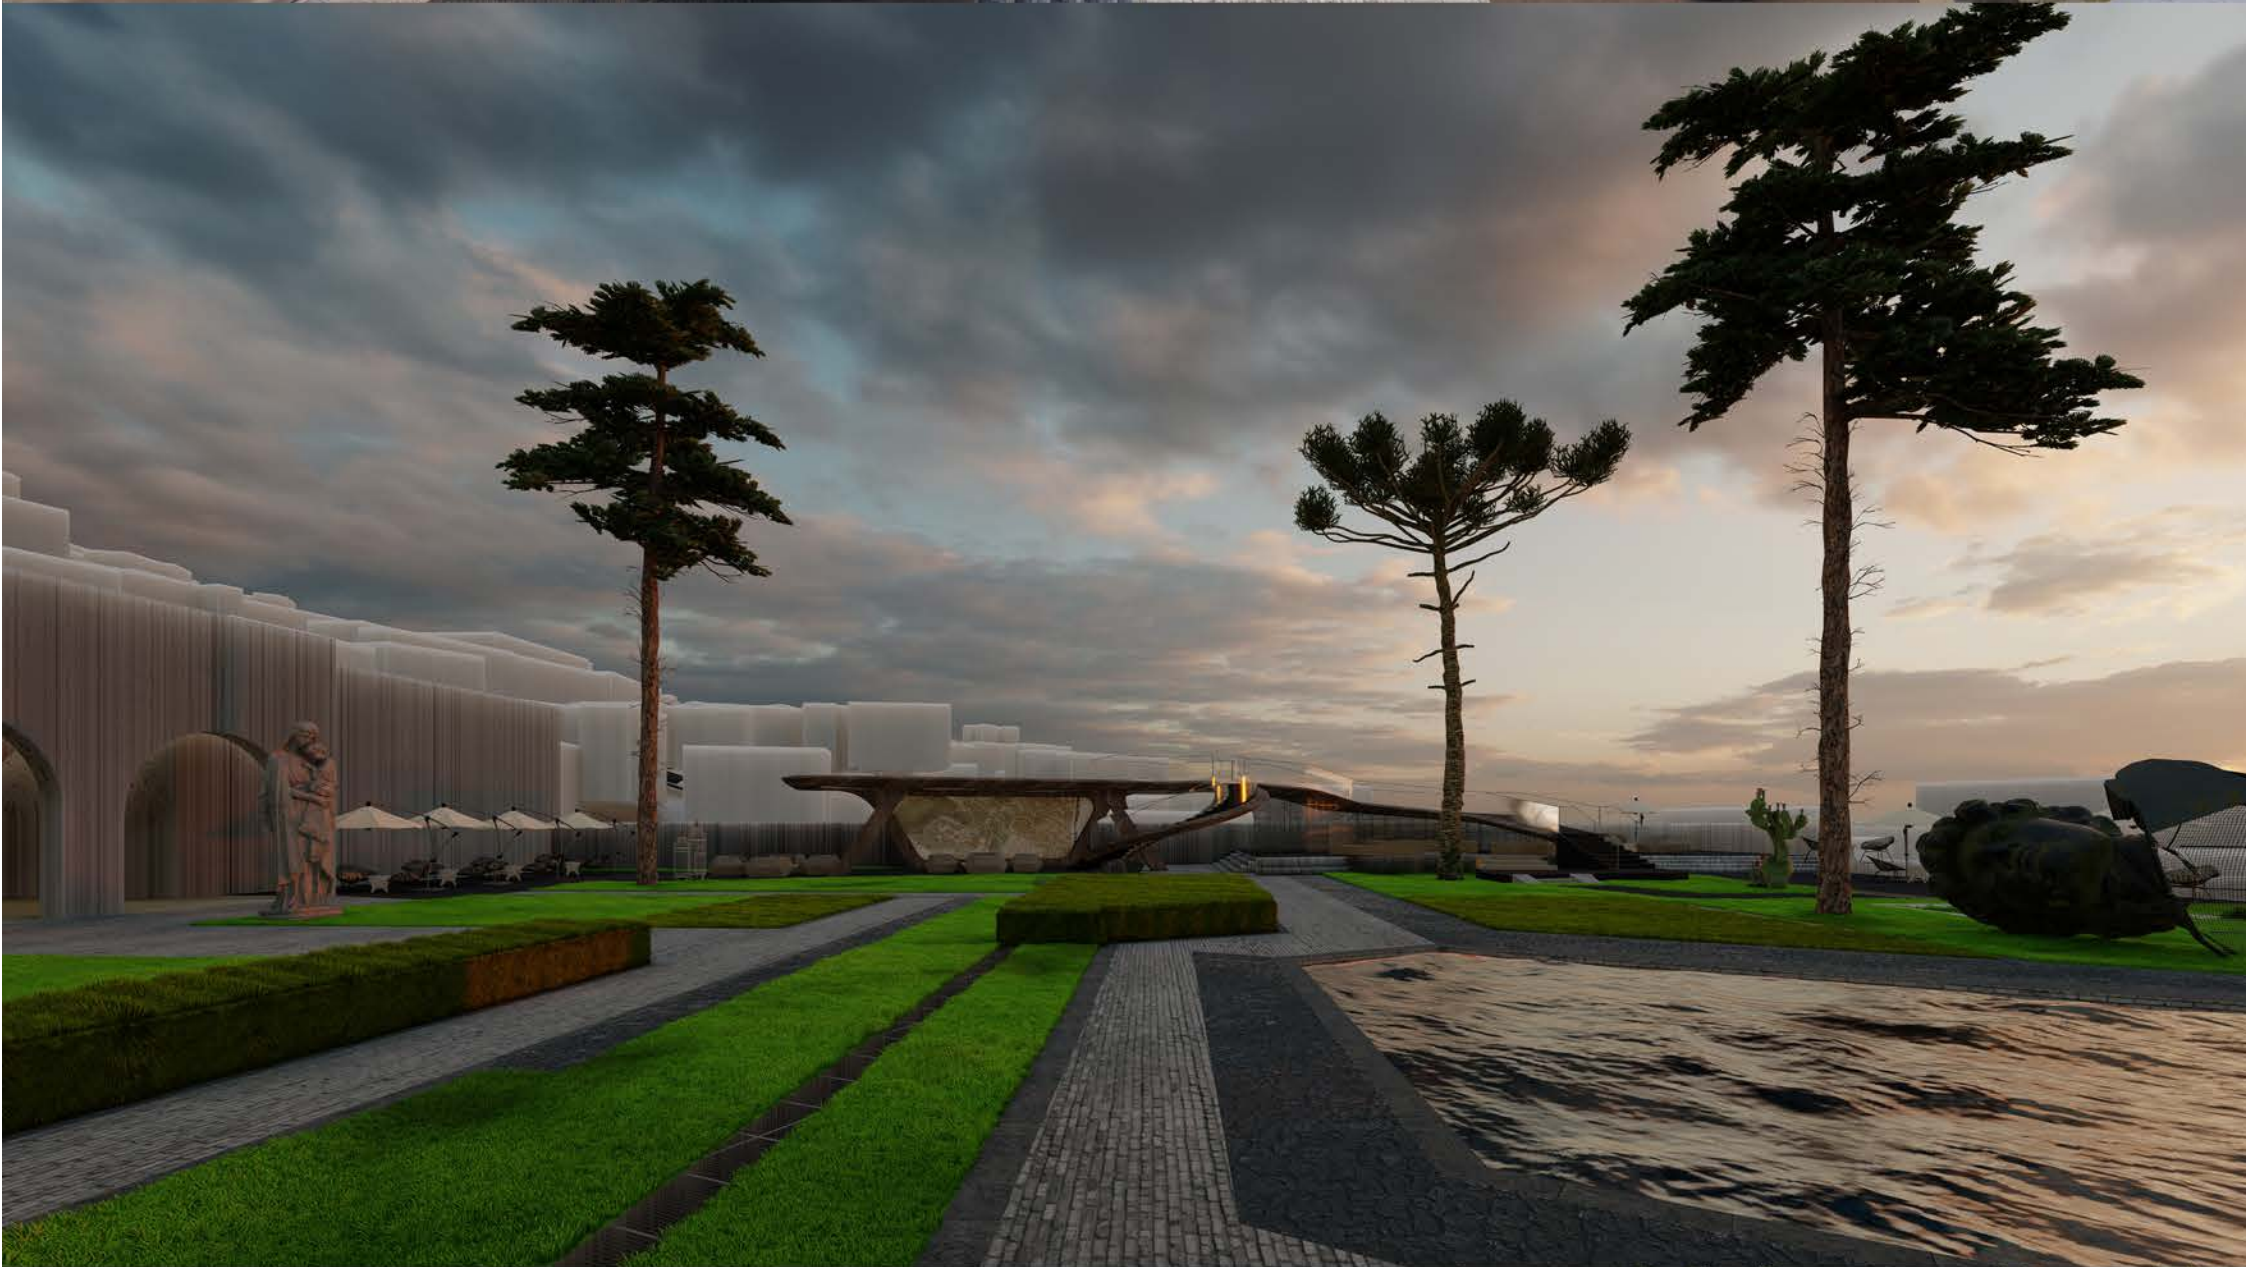

Master Plan

The idea of the project

Based on a comprehensive study of the historical background of the site and the demands of the residents, the site was optimized and updated, the landscape structure of the site was improved, fountains and ponds were added, and characteristic sculptures were added to the site. Among them, the children's activity area and the coffee area were mainly designed.
